

Cloud Services

The Cloud is more than a buzzword...it's an epic shift in business efficiency and leverage. We're experts in transitioning legacy systems to the Cloud and can help your business:

- Create a TCO Cost/Benefit Analysis
- Procure the Best Cloud Providers
- Transition from Legacy to Cloud Platforms

A Single Source Solution Provider for All Your Cloud Services Needs

Is the Cloud right for your business? Which systems in your business belong in the Cloud and which do not? Which providers should you invest in and how do you make the transition? These are all questions that **Integrated Telecom Solution Sourcing (ITSS)** can help your IT and financial teams determine and take your business to the next level quickly and securely.

WHY WORK WITH US

- We already understand your technology from the ground up
- We know IT, we know the Cloud, and most importantly, we know your business
- Single point of contact: We manage all escalations
- We tell you the truth. All providers are not created equal? We'll let you know
- We'll be here, long after the supplier sales person
- We're invested in your long term success
- We provide you choice in choosing the best vendors

BENEFITS OF THE CLOUD

- Reduce spending on technology infrastructure
- Achieve greater economies of scale
- Enhance globalization of workforce
- Improve security
- Reduce CAPEX significantly
- Minimize software license requirements
- Increase flexibility and reactivity
- Reduce training and learning curves
- Achieve better visibility company-wide
- Streamline business processes

“The true key to a successful Cloud migration is knowing which Cloud vendors are strongest in each technology and each vertical, and then sourcing the right partner accordingly.”

CLOUD EXPERIENCE WITH THE FOLLOWING VERTICALS

Oil & Gas, Engineering, Financial, Hospitality, Legal, Real Estate, Entertainment, Retail, Healthcare, Insurance, Government, Education, Software

DISASTER RECOVERY AND CONTINUITY

Hackers, cyber-terrorists, natural disasters and manmade disasters are no match for the Cloud. Consolidate your hardware infrastructure or become completely hardware independent with a virtual disaster recovery and business continuity solution.

UNIFIED COMMUNICATIONS (UCaaS) & COLLABORATION

Allow on-site and remote users to collaborate seamlessly between devices and platforms with Unified Communications. VoIP, mobility, video-conferencing, instant messaging, bring-your-own device (BYOD), collaboration, and presence technologies can all work together seamlessly in the cloud...with the right solution and implementation.

DATA CENTRE SERVICES

Create a highly resilient environment for your business-critical apps and data. ITSS represents Canadian and US based leading providers of outsourced data centre services, to bring you a multi-layer redundant national footprint that can scale to meet almost any need with service levels guarantees that offer 100% power and network availability.

Services our Data Centre Partners offer include secure and highly reliable data centre co-location, computing infrastructure and network services to support our client's mission-critical computing operations.

INFRASTRUCTURE-AS-A-SERVICE (IaaS)

Reduce IT complexity, obsolescence, and costs by moving your IT infrastructure to a virtual environment. Virtualizing your colocation, disaster recovery, and storage infrastructure in public, private or hybrid Clouds can make organizations more manageable, secure, and scalable at a much lower cost.

CLOUD VPN SERVICE

Simplify secure access to all your internal and cloud-based resources. With Cloud VPN, you can protect cloud environments, staging servers and company databases with total ease. Unlike traditional legacy VPN technology which is hardware-based, both costly and difficult to install and manage, Cloud VPN offers a simple, easy-to-use and cost-effective software solution.

ABOUT US

With over 100 years of combined IT and Telecom experience serving the Canadian Telecom market, the ITSS team brings the trust and integrity you need in your telecom advisor.

ITSS continuously analyzes and researches all available vendors and technology so you never have to worry about having the right solution that will meet your evolving business requirements.

Since its conception in 2009, ITSS has worked tirelessly to bring optimized solutions and competitive alternatives to its channel partners and its B2B customers.
